E. Received a reimbursement for the USFS for our help during the Cooper Creek Fire near Timothy Lake.

D. Firewise Discussion.

i. Per the Board's request, Fire Chief Jim Price contacted USFS Jeremy Goers, and he is willing to come to the November 9, 2021 Board Meeting to discuss fuels management concerns.

ii. Working to design a Firewise Program to provide funds and/or resources to the community for reducing fuels on their property. We are educating the public, but we need to offer an incentive to help encourage their participation. There are multiple options to consider:

a. Buy a trailer, bring it to resident's house, and then haul off debris. Cons: Labor intensive to drop off trailer, pickup trailer, and haul trailer to dump station. There is no place to dump yard debris close by, would have haul the debris into Troutdale. There are also fees to dump the debris.

b. Buy a chipper, bring it to resident's house and chip the debris. Cons: Insurance carrier does not recommend Hoodland Fire taking on the liability of a chipper. Labor intensive to bring to resident's house and chip debris. Issue of hauling off chips or leaving the chips?

c. Rent a chipper or curtain burner twice a year and allow the public to drop off debris?

d. Hire a chipping service to chip and haul off debris.
